

MEDIUM GRADE (202)

We are a manufacturer of reclaimed rubber in Medium Grade Size (202) grade. Reclaimed rubber has a capacity to replace virgin (raw) rubber upto 30-60% and subsequently lower downs the product cost. We are proud to introduce Oil & Chemical free reclaim rubber.

WHOLE TYRE RECLAIMED RUBBER

CHEMICAL PROPERTIES

ASH CONTENTS	%	8 +/- 2
--------------	---	---------

ACETONE EXTRACT	%	14 +/- 2
-----------------	---	----------

CARBON BLACK	%	26 +/- 2
--------------	---	----------

RUBBER CONTENTS	%	50 +/- 5
-----------------	---	----------

PHYSICAL PROPERTIES

HARDNESS (SHORE A)	55 +/- 5
--------------------	----------

TENSILE STRENGTH (KG/CM)	45 min
--------------------------	--------

ELONGATION @ BREAK %	250 min
----------------------	---------

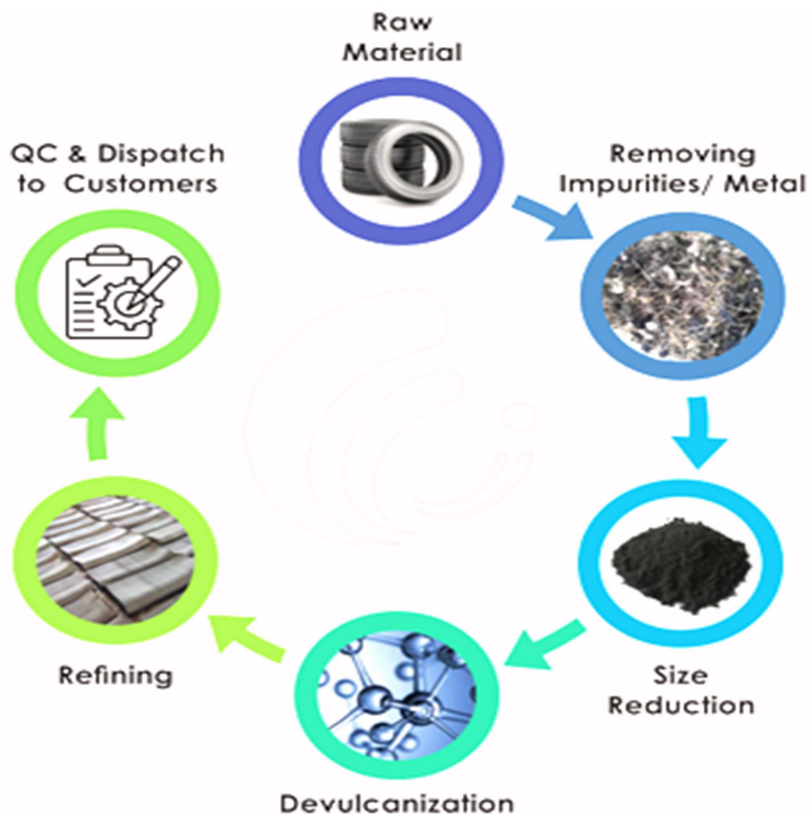

MOONEY VISCOSITY	30-50
------------------	-------

ADVANTAGE

- Faster mixer cycle.
- Improved die swell.
- Reduction in consumption of electric power.
- Practically no reduction in hot air ageing properties.

APPLICATION

- Bicycle tyres.
- Footwear sole.
- Conveyer and industrial belts.
 - Q tyre flap.
- Rubber sheets.
- Battery containers.
 - Car matting.
- Moulded goods.
